

This Vacuum Level Filling Machine is perfect where 'on the shelf' presentation is important as the fill level will be consistent, even when internal bottle tolerances vary.

The unit is suitable for any size glass or rigid bottles, from tiny nail polish bottles to wine bottles. It is available in both pneumatic and electrical versions.

Easifill is available with 2, 4, or 6 filling heads and the nozzles can be made to suit your application. Designed and manufactured at our UK headquarters with meticulous attention to detail, and with very few moving parts, Easifill is incredibly reliable and capable of filling up to 40 bottles per minute.

Key Benefits

- Fast, accurate level filling
- Low maintenance – no moving parts on Inducer model
- No container – no fill, for zero spillages
- Drip-free filling
- Simple operation & cleaning
- Can be upgrade as your requirements evolve
- ATEX Certified variant available

Specifications
