

# Posimatic EVL

FULLY-AUTOMATIC FILLING MACHINE

## Posimatic EVL: Simple, Accurate, Reliable Liquid Filling

The Posimatic EVL from Universal Filling Machine Company is the ultimate solution for efficient liquid filling.

Designed to accommodate a wide range of viscosities, from free-flowing alcohols and creamy gels to liquids with particulates like sauces, the Posimatic EVL is ideal for diverse industries, including:

- Food and Beverages
- Pharmaceuticals
- Cosmetics and Toiletries
- Industrial Chemicals
- Paints and Inks

The Posimatic EVL combines precision engineering with practical design, delivering outstanding results across a wide array of applications. Whether you need volumetric or vacuum-level filling, this machine is a reliable addition to your production line.

### Ready to Enhance Your Production?

Contact Universal Filling Machine Company today to learn more about how the Posimatic EVL can revolutionise your liquid filling process.

### Key Features and Benefits

- **Unmatched Versatility:** Handles viscosities ranging from 5ml to 5 litres with interchangeable rear filling pumps.
- **Superior Performance:** Fast, accurate, and repeatable liquid filling for increased productivity.
- **Cost-Effective:** Rapid return on investment with affordable pricing.
- **Ease of Use:** Simple operation and maintenance with in-line format minimising the need for expensive change-parts.
- **Adaptable:** Fully adjustable for various bottle and container sizes, easily integrating into existing production lines.

### Customisable Options

- **Filling Capacities:**
  - 5 – 1000ml with 2, 4, or 6 filling heads
  - 250 – 2500ml with 2 or 4 filling heads
  - 500 – 5000ml with 2 filling heads
  - Vacuum level filling available with up to 8 filling heads
- **Specialised Features:**
  - Full diving nozzle for bottom-up filling of foamy liquids
  - Variable speed conveyor options for any layout
  - ATEX version for flammable liquids

### Technical Specifications

- Built to UKCA/CE Standards
- 316 Stainless Steel contact parts for durability
- 304 Stainless Steel robust construction
- PLC Controlled for precise operations
- No Bottle, No Fill functionality for safety
